Update 1

Camps, first races

From leaving the UK, we headed straight for Pitztal, Austria, where we'd have our first camp with the British Squad and our first set of races for the season. It was a really intense, but really productive week and we learned so much from our coaches and watching all the World Cup racers training with us! It was really cool to train with our idols. The week finished with a National Championship and a Europa Cup, where we (especially Zoe) put down some good run times against the all the World Cup athletes entered.
